

USING THE INTERNET FOR YOUR JOB SEARCH

Where to start online....

The following websites are a few of the more popular job search sites available. Some will allow you to search their job listings without creating an account, but require a log-in ID to apply for the job on their website. Others require membership even to browse the site, either for free or at a price.

Many of these sites will also have salary information, resume and interview help, and numerous other resources available. If you sign up with a website, take full advantage of all that it has to offer!

Filling out applications online can be a lengthy process.

If you are uncomfortable with computers or are not used to using them, please bring a friend or family member to help you.

The Library staff is happy to help you sign into a computer and access the internet, but we are **not** able to provide step-by-step assistance with your online application.
